## CHAPTER MEETING

Oct. 25, 1989                      Wed. 7:30 PM  
Buchanan Terminal Building  
Concord Airport.                      **BRING CHAIRS**

## PROGRAM

Going Vertical

Jack Allison of Moeller Industries in Davis will give us an update on the various VTOL flying machines that company is developing.

## PRESIDENT'S MESSAGE

Its time again to consider who you will choose to lead the chapter for the next couple of years, otherwise known as Election Time. Several brave souls have graciously allowed their names to be tossed into the political arena of EAA leadership. Elections are best with more people than candidates, plan on making the Oct. meeting. Dandy program to boot.

Our Christmas banquet is shaping up nicely, with Bill DeProsse organizing the affair. New location, better choice of food, reasonable prices suggest a welcome change of pace for our annual awards dinner. Please mark Dec. 16th on your calendars.

Hope you all have had a chance to do some airwork in these waning days of summer. I especially like to see the soft green fuzz that creeps over the hill after that first heavy rain. Happy building!

## MINUTES OF SEPTEMBER MEETING

The meeting was called to order about 7:30pm. The minutes were approved, the treasurer's report was not given, we discussed various topics, including, Loran Outlet, CAC/AOPA petition against FAA's enforcement policy, sick sacks, members late on dues, builders groups, build it your way, Xmas Banquet, elections, and Lyle Powell gave us the run down on the Composite Builders Group. About 45 people attended.

This was followed by Gerry Greth's presentation on the VK-30 Cirrus and his Chevy engine for it. Thanks Gerry.
